

Since 1990, Tusk has and continues to play a fundamental role in initiating and funding conservation community development and environmental educational programmes across Africa.

The conservation of wildlife remains its key objective to help protect threatened species such as elephant, rhino, cheetah, chimpanzee and gorilla.

Hector & Queen feel incredibly passionate about the plight of these amazing animals and together with your help, we can help support Tusk in achieving their wonderful work.

By purchasing a pair of our very adorable handmade wildlife slippers, not only will you make your little one VERY happy, but Hector & Queen will donate 20% for every pair of slippers sold, to Tusk.

So spread the word and support Tusk as much as possible – can you imagine planet Earth without these beautiful animals?

For further information about Tusk please visit: www.tusk.org or to view our full range of slippers or local stockist please visit www.hectorandqueen.co.uk.
